

**Construction survival guide available**

ST. CHARLES – The Downtown St. Charles Partnership’s Economic Restructuring committee has released a new version of its Construction Zone Survival Guide.

The original guide was published in 1997 for the Main Street bridge reconstruction project. In light of the time frame for the First Street project, the group decided to re-release the guide. The guide is available on the Downtown Partnership’s Web site, [www.dtown.org](http://www.dtown.org), or by calling (630) 513-5386.
